agam.ag2424@gmail.com | +91 9718789256 | linkedin.com/in/agamagrawwal | cv-bot-weld.vercel.app | India | Immediate Availability

PROFESSIONAL SUMMARY

Delivery Manager with 11 years of experience leading complex software delivery projects within financial services and enterprise technology environments — managing scope, detailed estimation, planning, and schedules with ultimate accountability for delivery outcomes. Direct financial services software delivery experience — built and led a Central PMO for a UK FinTech client, managing solution delivery teams and client-facing Project Managers in a regulated environment. Strong track record managing day-to-day activities of cross-functional delivery teams — developers, testers, and solution consultants — ensuring project scope, milestones, and quality commitments are tracked and met. Excellent client engagement and stakeholder skills — liaised regularly with client Project Managers and Directors across multi-vendor, multi-geography engagements, translating client expectations into accurate delivery plans and estimates. Independent, self-directed, outcome-focused working style — proven ability to take initiative in client-facing delivery environments and drive the best outcome for both the organisation and its clients. AI-augmented delivery practitioner — deployed LLM-powered automation and built live AI delivery tools, demonstrating a forward-looking approach to software delivery efficiency. CSM and CSPO certified. Lean Six Sigma practitioner. Immediate availability.

KEY ACHIEVEMENTS

Financial Services Delivery — PMO Built	Built and led Central PMO for a UK FinTech client — managed solution delivery teams, client PM liaison, and delivery governance in a regulated financial services environment (Shawbrook Bank via Quinnox)
